

Visit to "Fish Biodiversity and Heritage Museum", Barama

Date- 16-11-2022

Department of Zoology, M.C. College, Barpeta

The visit was organised to fulfil the course requirement of B.Sc 3<sup>rd</sup> Sem. SEC. The CBSC course allows students to involve in diversified courses; one of which is ornamental fish and fishery, this later provide self-employment for interested students. The students studied the fish species of entire Northeast region available in the museum. A discussion on ornamental fishes of Northeast India, their availability and threats were also held between the students and Dr. Nripendra Nath Sarma (Retd. Principal I/C Bajali College, Pathsala). In this visit students acquire knowledge about basics of classification of fishes, habitats, abundance. One can learn about fish preservation, ornamental fishery and fish farming.

Visit to "Integrated Textile Park" Kharuajan,  
Mushalpur
