

Department of Botany

M.C. College, Barpeta

Observation on the curriculum:

1. Present curriculum enables students to gain thorough knowledge on different aspects.
2. The curriculum is almost of same rank with the leading universities of India.
3. Incorporation of the field-based knowledge is one of the good aspects of the curriculum.
4. The curriculum may prepare students to get ready for competitive examination.
5. Skill enhancement course incorporated in the curriculum make students skilled to be self employed apart from preparing them for other jobs.

Suggestions on the curriculum:

1. Hands on practice or practical classes should be increased.
2. Academic session should be well adjusted to cover the course as mentioned in the syllabus.
3. Government should provide financial support for the educational tour/ academic excursion.
4. In the skill enhancement course, the practical works to be accomplished should be specified well.
5. Much emphasis should be given to be self-employed.
